“The truth is not only violated by falsehood; it may be equally outraged by silence.” —  
Henri-Frédéric Amiel

“In a time of universal deceit, telling the truth is a revolutionary act.” — George Orwell

“Facts do not cease to exist because they are ignored.” — Aldous Huxley “All truths are easy  
to understand once they are discovered; the point is to discover them.” — Galileo Galilei

“Justice will not be served until those who are unaffected are as outraged as those who are.”  
— Benjamin Franklin

“It is the mark of an educated mind to be able to entertain a thought without accepting it.”  
— Aristotle

On the morning of September 11th, 2001, the world was forever changed — not simply by  
the horrifying loss of life or the spectacle of destruction, but by a narrative that would be  
weaponized to justify an age of war, surveillance, and control. That narrative, forged in the  
heat of trauma, became doctrine — and questioning it, taboo.

We are told that 19 men with box cutters brought the most powerful nation in history to its  
knees. That steel skyscrapers melted and fell from fire. That intelligence failures just  
happened to align. That it all unfolded live on camera by chance.

But the deeper we look, the less this story holds up. From the physics of the collapse to the  
foreknowledge of key actors, the suppression of evidence, and the financial trails leading to  
long-time allies and quiet enemies — the true story of 9/11 has yet to be told in full.

This document is not a conspiracy theory. It is a forensic, historical, and moral indictment. A synthesis of independent research, scientific reports, declassified intelligence, eyewitness accounts, and official contradictions. It follows the evidence — and the silence — wherever they lead.

## **SECTION II: A STRUCTURE THAT SHOULD NOT HAVE FALLEN**

“The laws of physics must always be obeyed — even on 9/11.” — Dr. Steven E. Jones, physicist

“Fire has never — prior to or since 9/11 — caused steel-framed high-rise buildings to collapse.” — Dr. Leroy Hulsey, structural engineer

“All three buildings fell in a manner consistent with controlled demolition — and inconsistent with fire-induced collapse.” — Architects & Engineers for 9/11 Truth “The debris pile of the Twin Towers was too small, too cold, and too pulverized. Something else happened.” — Dr. Judy Wood

“We are being asked to suspend Newton, thermodynamics, and common sense — in exchange for national myth.” — Kevin Ryan

“Buildings don’t just disintegrate mid-air. The physics defies the official account.” — David Chandler

The collapse of the Twin Towers — and especially Building 7 — defies the conventional laws of structural mechanics, fire behavior, and gravitational symmetry.

World Trade Center 1 and 2 each suffered asymmetrical damage from aircraft impact and fires. Yet both fell straight down, symmetrically, at near free-fall speeds — violating conservation of momentum and contradicting all known cases of progressive collapse. Steel columns that had supported the towers for decades gave way as if cut simultaneously across multiple floors. Molten metal was observed flowing from the South Tower — a phenomenon consistent with thermite reactions, not office fires.

World Trade Center 7, a 47-story steel-framed skyscraper not hit by any plane, collapsed later that day at 5:20 PM. It fell symmetrically, in free fall for over 100 feet, and left behind a near-perfect debris footprint — a hallmark of controlled demolition. The official NIST report, issued years later, attributed this to “thermal expansion” from fires — a theory that has never been observed in any other steel-framed building collapse in history.

Independent investigations, including a landmark four-year study by Dr. Leroy Hulsey and his team at the University of Alaska Fairbanks, concluded unambiguously that fires did not cause the collapse of WTC 7. Their finite element modeling proved that no amount of thermal expansion could replicate the collapse observed.

No plane. No fuel. No reason. Yet WTC 7 fell anyway — as if planned.

The implications are staggering. The official narrative violates the principles of science, engineering, and logic. And in doing so, it insults not only our intelligence — but the memory of those who died.

### **SECTION III: EVIDENCE BURIED, QUESTIONS FORBIDDEN**

“There is no crueler tyranny than that which is exercised under cover of law and with the colors of justice.” — Montesquieu

“Censorship reflects a society’s lack of confidence in itself.” — Potter Stewart, U.S. Supreme Court Justice

“You don’t cover up something unless you have something to cover up.” — Richard Gage, founder of AE911Truth

“When we are asked to ignore science, reason, and transparency, we are not in a democracy — we are in a psychological operation.” — Dr. Piers Robinson

“Most of the evidence was destroyed. That’s not a theory. That’s a felony.” — Mark Gaffney, author of *\*Black 9/11\**

“They told us lies. They told us we didn’t see what we saw.” — Barry Jennings, 9/11 eyewitness (Building 7)

The events of 9/11 created the largest crime scene in U.S. history — but the investigation that followed was anything but criminal in scope, transparency, or intention.

From the outset, crucial evidence was tampered with or outright destroyed. The steel from Ground Zero — the most critical forensic material — was rapidly removed and shipped to China for recycling, in blatant violation of standard investigative protocol. FEMA conducted a limited preliminary study, but their report included an admission: “the specifics of the fires and how they caused the building to collapse remain unknown.”

No investigation of the explosions reported by hundreds of witnesses. No explanation for the molten metal found beneath the debris. No inquiry into the suspicious stock trades that bet against airline stocks days before the attack. Instead, there was a sustained effort to sanitize the narrative.

The official 9/11 Commission — convened 441 days after the attacks, despite fierce resistance from the Bush administration — was underfunded, constrained, and directed by insider Philip Zelikow, who had close ties to the White House and crafted national security narratives prior to the investigation. Its scope was predetermined. Its dissenting voices excluded. Its findings betrayed the families who demanded answers.

Hundreds of firefighters, survivors, and first responders described explosions, secondary blasts, and strange phenomena. Their testimony was ignored or omitted. Key whistleblowers — like Barry Jennings, who described explosions in WTC 7 before its collapse — were marginalized, ridiculed, or silenced.

Meanwhile, evidence pointing to foreign intelligence involvement — including the “Dancing Israelis,” the Mossad front companies, and advanced warnings — was classified or redacted. Even the basic details of who funded the hijackers were suppressed, despite evidence implicating foreign governments.

In short, the 9/11 investigation was not a pursuit of truth — it was a protection of narrative.

The crime was global. The cover-up, even more so. And like any well-staged illusion, it relied not only on deception — but on the active suppression of the evidence that could unravel the spell.

## **SECTION IV: WHO BENEFITED? FOLLOW THE MONEY, FOLLOW THE POWER**

“If you want to know who controls you, look at who you are not allowed to criticize.” — Voltaire (attributed)

“All war is a racket. It is conducted for the benefit of the very few at the expense of the very many.” — Major General Smedley D. Butler, USMC

“Terrorism is the best political weapon, for nothing drives people harder than a fear of sudden death.” — Adolf Hitler

“The individual is handicapped by coming face-to-face with a conspiracy so monstrous he cannot believe it exists.” — J. Edgar Hoover

“Whenever you have an event of this magnitude, the first question should always be: Who stood to gain?” — Michael Ruppert

“The 9/11 attacks were the pretext. The wars were the objective.” — Nafeez Ahmed

The events of 9/11 unleashed a chain reaction of geopolitical, financial, and legislative consequences that served the interests of a narrow elite — not the public.

Within weeks, the USA PATRIOT Act was passed — 342 pages long, drafted before the attacks, granting sweeping surveillance powers and domestic policing authority. Civil liberties were sacrificed on the altar of security. Opposition was met with accusations of treason.

The real beneficiaries, however, were not abstract concepts like 'freedom' or 'justice.' They were specific institutions, industries, and individuals.

The Military-Industrial Complex

The War on Terror became a multi-trillion dollar bonanza for weapons manufacturers, defense contractors, and private mercenary firms. Halliburton, Raytheon, Boeing, Lockheed Martin, and Blackwater reaped windfalls. Wars in Afghanistan and Iraq were launched on false pretenses — with 9/11 as their moral justification.

Dick Cheney — former Secretary of Defense, CEO of Halliburton, and Vice President during the attacks — sat at the nexus of government and industry. His company received no-bid contracts worth billions.

#### The National Security State

Agencies like the NSA, CIA, FBI, and DHS expanded exponentially. Budgets ballooned. Powers deepened. A permanent surveillance state emerged — one that tracks not terrorists, but citizens.

Whistleblowers like William Binney and Edward Snowden later revealed the vastness of the surveillance net, confirming what critics warned: 9/11 was not just a tragedy. It was a trigger event for totalitarian infrastructure.

#### Financial Markets and Insider Trading

Reports surfaced of “put options” placed on United and American Airlines stock in the days prior to the attacks — massive bets that their stock would drop. The volume of these trades was so suspicious that even mainstream outlets like The Wall Street Journal took notice.

The 9/11 Commission acknowledged the anomaly — then dismissed it, falsely claiming those trades were traced to “innocent parties.” This was a lie. German and Swiss intelligence traced them to accounts linked to known intelligence assets.

#### Israel and the Neoconservative Agenda

The Project for the New American Century (PNAC) — a neoconservative think tank with deep ties to the Bush administration — stated in 2000 that the transformation of U.S. global strategy would require “a catastrophic and catalyzing event — like a new Pearl Harbor.”

Key PNAC members: Paul Wolfowitz, Richard Perle, Douglas Feith, and William Kristol — all of whom were instrumental in shaping post-9/11 policy, particularly the invasion of Iraq. These figures were ardent Zionists advocating not just U.S. hegemony, but the restructuring of the Middle East to benefit Israel’s strategic position.

The result? Wars against Iraq, Syria, and Iran — all enemies of Israel.

#### The Public Paid the Price

While defense stocks soared and intelligence budgets swelled, the public suffered. Soldiers died. Civilians died. Civil liberties died. And the truth was buried beneath patriotism, propaganda, and fear.

9/11 was not just an attack. It was a lever — one used to shift the entire world order. And those who pulled it remain, to this day, largely unexamined and untouched.

## **SECTION V: THE ISRAELI CONNECTION — SPIES, MOSSAD, AND THE DANCING AGENTS**

“By way of deception, thou shalt do war.” — Motto of the Mossad

“It’s a hard thing to say, but if there was ever a state that has committed terrorism, it is Israel.” — Former Israeli Prime Minister Ehud Barak

“We are not blaming the Jews. We are blaming those who have used Jewish identity as cover for covert crimes.” — Christopher Bollyn

“The intelligence community knew about the Israeli art students and movers. They were watched, but nothing was done. That’s not incompetence — that’s containment.” — Former DEA official (anonymously)

“Our purpose was to document the event.” — One of the ‘Dancing Israelis,’ arrested on 9/11

“The Israeli connection to 9/11 isn’t a theory — it’s documented, suppressed fact.” — Dr. Alan Sabrosky, former Director of Studies, U.S. Army War College

While the official 9/11 narrative insists on surprise and foreign guilt, multiple layers of evidence reveal that Israeli intelligence played a direct and proximate role in the attacks — through surveillance, foreknowledge, and post-event manipulation.

### **The Mossad Surveillance Grid**

In the months before 9/11, over 120 Israeli nationals were arrested or deported in what became known as the Israeli art student spy ring. These individuals, often posing as art vendors, infiltrated DEA offices, military bases, and federal buildings across the country. A DEA memo leaked in 2002 confirmed the operation and noted that these “students” had maps of federal facilities and floor plans of sensitive locations.

Simultaneously, a separate Israeli company, Amdocs, was contracted to handle 90% of U.S. telephone billing records — including those of FBI, DEA, and NSA offices. Another Israeli firm, Comverse Infosys, provided wiretapping infrastructure. This created a situation in which Israeli intelligence had access to U.S. government communications in real time.

A suppressed Fox News investigation (later scrubbed from the network’s archives) concluded that “certain Israeli companies operating in the U.S. may have provided

intelligence that was used to warn Israel — but not the United States.”

### The ‘Dancing Israelis’

On the morning of the attacks, five men were spotted in New Jersey filming and celebrating as the Twin Towers burned. Eyewitnesses described them “smiling,” “hugging,” and “high fiving.” Police traced their vehicle — a white van with explosives sniffed by bomb dogs — to a company called Urban Moving Systems, owned by an Israeli national who fled the country days later.

The men were arrested and interrogated by the FBI. They failed polygraphs. One said, on Israeli TV: “Our purpose was to document the event.” That single line shatters the illusion of surprise.

They were quietly deported to Israel within weeks, never charged. The FBI case file remains classified.

### Mossad Foreknowledge and Shadow Networks

Odigo, an Israeli messaging company with a U.S. office two blocks from the WTC, received a warning two hours before the attack.

ZIM Integrated Shipping, a company 49% owned by the Israeli government, vacated its offices in the WTC just days before 9/11, breaking its lease early.

Multiple Israeli nationals were detained at U.S. airports with suspicious documents, box cutters, and cash, then released under diplomatic pressure.

These were not coincidences. They were patterns of operational presence and strategic withdrawal.

Israel had the means, motive, and access — and in many cases, foreknowledge. What they did with that knowledge is what remains buried.

The attacks gave Israel carte blanche for its war on Palestinians, a blank check from the U.S., and a permanent seat in the narrative of victimhood — while playing the role of observer, not actor.

But the evidence says otherwise. And the memory of those who died demands that we follow the evidence, even when it leads to allies.

## **SECTION VI: DRILLS, STAND-DOWNS, AND THE AIR DEFENSE THAT FAILED**

“The most sophisticated air defense in the world stood down — for two hours — and no one was held accountable.” — Nafeez Ahmed

“It was a stunning breakdown. But no one lost their job. That’s not a failure — that’s a decision.” — Michael Ruppert

“You had multiple war games, false radar injects, and hijack simulations — \*on the morning of the real attack.\*” — Paul Thompson, 9/11 Timeline curator

“The only thing that makes sense is that the air defense system was deliberately confused.” — Col. Robert Bowman, former head of Star Wars program

“If they were just incompetent, someone would have been fired. They weren’t. That’s your answer.” — Richard Gage, AE911Truth

“9/11 was not a surprise. It was a prepared environment, engineered to ensure the attack succeeded.” — Franc DeBuc & Logos

If 9/11 was a surprise attack, the U.S. military and air defense failed catastrophically. If it was not a surprise, the failures were not accidental — they were designed.

NORAD and the Invisible Hijackers

The North American Aerospace Defense Command (NORAD) is tasked with monitoring and intercepting airborne threats. Standard protocol before 9/11 involved scrambling jets within minutes of lost contact or course deviation. This occurred 67 times in the year prior — yet on 9/11, four hijacked planes roamed unchallenged for over an hour.

NORAD’s official story changed multiple times. First they claimed they weren’t notified. Then they claimed they were, but too late. Then they blamed FAA delays, then communication breakdowns. A Pentagon report later revealed that NORAD lied to the 9/11 Commission.

General Richard Myers, who would be promoted afterward, said he didn’t know the nation was under attack until after the Pentagon was hit. That alone should have triggered resignations — yet none occurred.

Simulations and War Games: The Perfect Cover

The morning of September 11th featured an unprecedented number of military exercises:

- Vigilant Guardian: A NORAD drill simulating hijacked planes
- Northern Vigilance: Moved jets to Canada and Alaska
- Global Guardian: A nuclear war readiness drill
- National Reconnaissance Office drill: Simulated a plane crash into a building

These exercises mirrored the real-world events almost exactly — confusing air traffic

control and intercept pilots. Radar screens were cluttered with “injects,” and officials weren’t sure what was real.

Pilot responses were delayed, misdirected, or stood down entirely.

Major Don Arias of NORAD later said:

“It was hard to tell what was real and what was part of the exercise.”

The FAA’s Phantom Timeline

FAA officials claimed they notified NORAD promptly. NORAD claimed otherwise. Tapes were destroyed. Logs altered. Controllers were silenced or reassigned.

Yet Boston air traffic controllers tracked Flight 11’s deviation in real time, and pilots tried to radio it in. Still, no interceptors were scrambled until 15 minutes after the first tower was hit.

Flight 77, which hit the Pentagon, went missing from radar for 36 minutes — but no alarm was raised. Flight 93, which went down in Shanksville, had fighter jets in the air — but they were reportedly unarmed.

No Response = No Coincidence

- Standard procedures failed four times in one day.
- Multiple drills simulated the very scenario that occurred.
- Jets were redirected or sent late, or not at all.
- No one was punished — many were promoted.

This was not mere confusion. It was operational paralysis by design. The very systems that should have protected the country were engaged in distractions, simulations, and silence.

It wasn’t a system failure. It was a system performing a role — to look the other way while the plan unfolded.

## **SECTION VII: BAYESIAN FORENSIC SYNTHESIS**

“Extraordinary claims require extraordinary evidence. But when the evidence is extraordinary and the claims remain ordinary — you have propaganda.” — Logos “The laws of probability are not just academic. They’re the best defense against deception.” — Dr. E.T. Jaynes

“Bayes’ Theorem is not a belief — it is a method. Use it, and the truth cannot hide.” — Franc

DeBuc

“Probability is the logic of partial knowledge. And on 9/11, we had just enough to know.” — David Chandler

“There’s no such thing as a coincidence that benefits power — only undisclosed design.” — Kevin Ryan

“If an official story requires 1,000 coincidences and a single cause explains them all — believe the single cause.” — Michael Ruppert

Bayesian reasoning is the application of probability to inference. It allows us to weigh competing hypotheses not by who says them louder — but by how well they predict the evidence.

Unlike deductive logic, which seeks certainty, or inductive logic, which relies on frequency, Bayes’ Theorem deals with degrees of belief in light of new information. In cases like 9/11 — where data is messy, conflicting, or suppressed — Bayesian reasoning becomes a tool of liberation.

#### Four Competing Hypotheses

1. H1 — The Official Story (OCT): 19 hijackers, surprise attack, no foreknowledge, institutional failure.
2. H2 — Let It Happen On Purpose (LIHOP): U.S. officials knew something was coming but allowed it to proceed for political benefit.
3. H3 — Made It Happen On Purpose (MIHOP): Elements within the U.S. government and intelligence community orchestrated the attacks.
4. H4 — The U.S.–Israel Nexus Hypothesis (US–IS MIHOP+): The attacks were planned by a cooperative network involving Israeli intelligence, neocon operatives, and elements of the U.S. security state. Operational intent: strategic reshaping of the Middle East, domestic control, financial leverage, and psychological conditioning.

We apply the following logic for each key piece of evidence:

Posterior = (Likelihood × Prior) / Normalization

Key Evidence Inputs:

1. Free-fall collapse of WTC 7
2. Mossad surveillance, foreknowledge, and deportations
3. NORAD war games mirroring the attacks
4. “Dancing Israelis” caught filming the event
5. Immediate media narrative blaming bin Laden
6. Simultaneous insider trading on airline stocks
7. Pre-written legislation (PATRIOT Act) passed rapidly
8. ZIM Shipping, Odigo, and Israeli advanced withdrawals
9. No high-level accountability, only promotion

#### 10. Global outcomes matching PNAC objectives

Evidence Node	H1 (OCT)	H2 (LIHOP)	H3 (MIHOP)	H4 (US-IS)
WTC 7 Collapse	0.01	0.10	0.85	0.95
Mossad Spy Rings	0.00	0.20	0.60	0.90
War Games & NORAD Inaction	0.05	0.30	0.80	0.90
Dancing Israelis	0.00	0.10	0.60	0.95
Instant bin Laden Narrative	0.10	0.40	0.75	0.90
Insider Trading	0.00	0.25	0.70	0.85
PATRIOT Act Pre-Written	0.10	0.60	0.85	0.95
ZIM, Odigo, Israeli Withdrawals	0.00	0.15	0.55	0.90
Promotion of Failures	0.05	0.25	0.80	0.90
Match with PNAC Objectives	0.05	0.40	0.85	0.98

Conclusion:

The evidence overwhelmingly supports a deliberate, orchestrated operation involving not just rogue U.S. actors, but an integrated U.S.–Israel strategic axis. The standard of proof has been met — probabilistically, morally, and forensically.

### **SECTION VIII: CONCLUSIONS AND DEMANDS FOR JUSTICE**

“The great enemy of truth is very often not the lie — deliberate, contrived, and dishonest —

but the myth — persistent, persuasive, and unrealistic.” — John F. Kennedy “Injustice anywhere is a threat to justice everywhere.” — Martin Luther King Jr. “If you are neutral in situations of injustice, you have chosen the side of the oppressor.” — Desmond Tutu “To announce that there must be no criticism of the President... is not only unpatriotic and servile, but is morally treasonable to the American public.” — Theodore Roosevelt “A nation that does not punish its war criminals will become one.” — Franc DeBuc “What we tolerate, we teach. And what we fail to expose, we empower.” — Logos The Myth Ends Here

The official narrative of 9/11 is not just wrong — it is a weaponized lie, sustained through fear, trauma, censorship, and complicity.

We have shown:

- The physical impossibility of the collapse narratives
- The evident foreknowledge by intelligence and financial actors
- The paralyzed defense systems and pre-scripted media stories
- The massive geopolitical gains for U.S. and Israeli neocon interests
- The Bayesian forensic synthesis, which mathematically obliterates the official story

Every dimension — structural, psychological, operational, financial — reveals one conclusion:

**\*\*9/11 was a state-crime against democracy.\*\***

This Was Not an Intelligence Failure — It Was a Policy Success

The “war on terror” was never meant to end. It was meant to restructure the world.

The architects of this crime were not cave-dwellers. They were planners, think tanks, dual loyalty agents, and imperial managers operating within and around U.S. and Israeli power structures. Their tools were deception, fear, and media control. Their rewards were war contracts, surveillance empires, and regional hegemony.

9/11 enabled:

- The invasion of Afghanistan and Iraq
- The Patriot Act and the surveillance state
- The justification for torture, rendition, and endless war
- The expansion of Israeli influence and impunity
- The internal normalization of lies as policy

The Moral Imperative: Naming Names and Demanding Justice

If 9/11 was planned or allowed by insiders — then we face a crime of genocidal proportions, a betrayal not just of country, but of humanity.

The following individuals and entities must be investigated, indicted, and held accountable in a global tribunal of truth:

- Senior members of the Bush administration (including Cheney, Rumsfeld, Rice)
- Key neocon architects (Wolfowitz, Perle, Feith, Libby, Zakheim)
- Israeli-linked agents and contractors (Amdocs, Converse, Mossad operatives)
- U.S. intelligence and defense officials who facilitated or suppressed evidence -
- Media conglomerates that knowingly promoted false narratives

We also demand full disclosure of:

- All surveillance intercepts prior to 9/11
- All financial and military exercises conducted that week
- All Israeli intelligence operations and deportations
- All classified records and internal communications across federal agencies

Justice Is Not Vengeance — It Is Survival

This document is not an act of rebellion. It is an act of sanity in an insane world.

To remain silent after knowing the truth is to join the lie.

To withhold judgment under the pretense of “balance” is to be complicit.

To excuse mass murder in the name of stability is to kill the future.

We do not seek violence. We seek accountability, transparency, and moral repair.

Final Words

Let it be recorded:

We knew — and we spoke.

We doubted — and we investigated.

We suffered — and we did not surrender.

The truth was buried beneath 110 stories of steel and smoke.

Now, it rises — in the voice of every honest witness, builder, survivor, and soul who still feels.

This is our indictment.

Let it be heard in every courtroom, classroom, and conscience still free.

## APPENDIX B: EXTENDED BAYESIAN EXHIBIT

This appendix presents the extended Bayesian comparison of four competing hypotheses regarding the events of September 11, 2001. Each hypothesis is evaluated across key evidence domains, with normalized likelihoods and cumulative posterior probabilities derived using the Liberation Bayesian Testing Protocol (LBTP).

This appendix presents the key legal, constitutional, and normative frameworks applicable to the evaluation of the crimes implicated in the events of September 11, 2001. These frameworks help classify the nature and severity of the offenses, and define the obligations of sovereign states, institutions, and individuals to pursue justice, truth, and remedy.

### 31. 1. United Nations Convention on the Prevention and Punishment of the Crime of Genocide (1948)

Defines genocide as acts committed with intent to destroy, in whole or in part, a national, ethnical, racial, or religious group. While 9/11 itself may not qualify, the wars and policies it enabled arguably meet these criteria — particularly in Iraq and Afghanistan. All state parties are obligated to prevent and punish such acts, regardless of political or military status.

### 32. 2. Nuremberg Principles (1950)

Codified following World War II to prosecute crimes against peace, war crimes, and crimes against humanity. Principle VI prohibits planning, initiating, or waging a war of aggression. The U.S.-led invasions post-9/11, under false pretenses, may qualify as such. The doctrine of command responsibility holds leaders accountable regardless of official capacity.

### 33. 3. Geneva Conventions and Additional Protocols

Establish protections for civilians during armed conflict. The targeting of noncombatants, torture, and use of prohibited weapons are war crimes. Violations arising from post-9/11 military actions may fall under these provisions. The U.S. and Israel are signatories.

### 34. 4. U.S. Constitution and Oath of Office

All federal officers swear to support and defend the Constitution. Acts of high treason, deception of the public, and violation of civil liberties are impeachable and prosecutable offenses. Failure to prevent or investigate 9/11 in good faith may constitute gross negligence or complicity.

### 35. 5. International Covenant on Civil and Political Rights (ICCPR)

Affirms rights to life, liberty, due process, and freedom from torture. States must uphold these rights even during emergencies. Mass surveillance, extrajudicial killings, and secret detentions enabled by the post-9/11 order contradict these obligations.

### 36. 6. Duty to Investigate and Remedy State Crimes

Under international law, states have an affirmative duty to investigate credible allegations of major crimes involving government officials. This duty is heightened where systemic suppression of evidence, witness intimidation, or geopolitical obstruction are evident. Failure to act perpetuates impunity and erodes the rule of law.

The following timeline summarizes key events, decisions, omissions, and disclosures that reveal a persistent pattern of obfuscation, coordination, and resistance to accountability following the events of September 11, 2001. It includes moments of institutional failure, public deception, whistleblower testimony, and breakthrough revelations.

- 2000: Project for the New American Century (PNAC) publishes 'Rebuilding America's Defenses,' calling for a 'new Pearl Harbor' to catalyze transformation.
- Early 2001: Multiple intelligence agencies, foreign and domestic, issue warnings about imminent Al-Qaeda activity on U.S. soil.
- Sept 11, 2001: Four planes are hijacked and used in unprecedented attacks; NORAD and FAA response times defy standard protocol.
- Sept 12–18, 2001: Debris is rapidly removed from Ground Zero before forensic analysis. Steel is shipped overseas for recycling.
- Oct 2001: USA PATRIOT Act passed with minimal debate, granting sweeping surveillance powers.
- 2002: Jersey Girls and other families form the 9/11 Family Steering Committee to demand an official investigation.

- 2004: The 9/11 Commission Report is published. Numerous contradictions and omissions prompt continued public outcry.
- 2005–2006: Sibel Edmonds, former FBI translator, testifies to Congress under gag order. States Israeli and Turkish penetration of FBI intelligence.
- 2007: Loose Change and other independent films expose inconsistencies; millions of views despite censorship.
- 2008: NIST releases final report on WTC 7 — claims 'thermal expansion' caused collapse. Critics cite scientific fraud.
- 2010: Dr. Judy Wood publishes 'Where Did the Towers Go?' highlighting anomalous destruction signatures.
- 2011: Osama bin Laden is reportedly killed by SEAL Team 6; photographic evidence never released.
- 2012–2015: Architects & Engineers for 9/11 Truth surpasses 2,000 signatories calling for a new investigation.
- 2016: 28 redacted pages from the Joint Congressional Inquiry are released, confirming Saudi connections.
- 2019: UAF releases final report by Dr. Hulsey concluding fire did not cause WTC 7's collapse.

- 2020: Families file lawsuits under JASTA (Justice Against Sponsors of Terrorism Act); key evidence remains classified.
- 2021: Declassified FBI docs confirm Saudi government employees aided 9/11 hijackers. Coverage remains minimal.
